

PP Fibre with recycled PP

Provisional Technical Data Sheet

PP Fibre with recycled PP is a melt-spun staple fibre composed of Polypropylene and contains up to 50 % recycled Polypropylene.

The fibre is mainly available in colored variants.

Fibre characteristics

Fibre cross section	Round-shaped
Denier (dTex)	4.4 – 400
Staple length (mm)	6 – 90
Tenacity (cN/tex)	> 25
Elongation at break (%)	> 60
Shrinkage (% , 120 °C/10 min)	< 3
