

IFG - Recycled Polypropylene (rPP) Fibres

IFG have been producing PP-staple fibres in a melt spun process for almost 50 years. IFG's rPP fibres show a further step forward and commitment towards our drive to increase sustainability. rPP consists of virgin PP combined with mechanically recycled PP (50 - 100%) and is available in raw white, black and spun-dyed (on request only).

Titre:
3.3 - 600 dtex

Cut Length:
6 - 90mm

Crimp:
0.5 - 8 crimps/cm or straight

Tenacity:
min. 25cN/tex

Elongation:
40 - 120%

Applications:
Carpets, Automotive,
Construction

Form of supply: Staple fibres or Tow

Packaging: Bales, cardboard boxes or big bags

Special demands on certain properties need to be discussed.

Sustainability is imperative to our future, and we have a responsibility to ensure our company, products and customers can contribute as much as possible. Our progressive R&D line investment allows IFG to develop more environmentally friendly, sustainable fibres, recycled polymers and be committed to future advancements in technology.
